

Registration Form – Full Day Workshop
Sustainable Agronomic Education Association (*www.SustainableAgRGV.org*)
Real Medicine–Real Health
Arden Andersen, D.O., Ph.D.

February 4, 2010, 8:30 AM, Echo Hotel & Convention Center, Edinburg, Texas

Dr. Arden Andersen is an internationally recognized physician, scientist, and author of several books including *Real Medicine–Real Health*.

He is an agricultural consultant, family practice physician, and a flight surgeon in the Air Force. Dr. Andersen is an enthusiastic advocate for preventative health care and, as a leader in the field of sustainable agriculture, a strong proponent of the critical role of food quality in human health.

He travels extensively, presenting lectures and workshops on the links between the nutritional quality of food and human health. Dr. Andersen expertly draws together facts on agriculture, food and healthy living into an exciting full-day workshop.

Register early because space is limited for this event. The workshop includes refreshments and a buffet lunch.

Please complete and mail with your check made payable to:

Sustainable Agronomic Education Association
